A. Policy & Objects
B. Device Manger
C. FortiGuard
D. FortiView
Answer: C

NEW QUESTION: 3
Scenario
Brownlow Communications is an enterprise that has been expanding rapidly by acquiring a number of smaller agencies. As a result of these acquisitions, the company has several data centers, which are managed separately. Both the data center and campus networks are out-of-date and preventing the company from achieving its goals. The company is looking for a network refresh that will:
Make it easier and faster to deploy new applications in the virtualized data centers
Help the company to innovate and implement new business initiatives now and in the future, without constant major upgrades
Ensure that services are always available for employees and customers; critical data center applications, in particular, should experience minimal downtime
Support security initiatives and regulatory compliance
Improve performance for. and decrease user complaints about, the company's Microsoft Lync

solution and other multimedia applications
Enable users to connect their own devices to the network without burdening IT staff or introducing security issues
Make it simpler for the company to expand to new branches and to handle new acquisitions
Refer to the scenario tab.
You are proposing an HP branch networking solution to this customer. How can you describe the value of this solution for helping Brownlow meet its goals?
A. HHP is recognized by customers for its many different branch management tools and interfaces.The HP branch solution does not include support for software-defined networking (SDN), so it is cost-effective.
B. HP is recognized by customers for creating rigid siloes for branch office network infrastructure, servers, and storage.
C. The HP branch solution makes it easy for the company to deploy virtual services at new branches.
Answer: A
