NEW QUESTION: 2
Which two security features are only supported on the Cisco Nexus 7000 Series Switches? (Choose two.)
A. traffic storm control
B. IP source guard
C. DHCP snooping
D. Dynamic ARP Inspection
E. NAC
F. CoPP
Answer: A,E
Explanation:
A traffic storm occurs when packets flood the LAN, creating excessive traffic and degrading network performance. You can use the traffic storm control feature to prevent disruptions on Layer 2 ports by a broadcast, multicast, or unicast traffic storm on physical interfaces.
Traffic storm control (also called traffic suppression) allows you to monitor the levels of the incoming broadcast, multicast, and unicast traffic over a 10-millisecond interval. During this interval, the traffic level, which is a percentage of the total available bandwidth of the port, is compared with the traffic storm control level that you configured. When the ingress traffic reaches the traffic storm control level that is configured on the port, traffic storm control drops the traffic until the interval ends.

Which two statements are true about RowSet subinterfaces?
A. A FilteredRowSet object filter can be modified at any time.
B. A CachedRowSet provides a connected view of the database.
C. A WebRowSet returns JSON-formatted data.
D. A JdbcRowSet object provides a JavaBean view of a result set.
Answer: A,D
Explanation:
Explanation/Reference:
Explanation:
A: a JdbcRowSet object can be one of the Beans that a tool makes available for composing an application.
Because a JdbcRowSet is a connected RowSet, that is, it continually maintains its connection to a
database using a JDBC technology-enabled driver, it also effectively makes the driver a JavaBeans
component.
C: The FilteredRowSet range criterion can be modified by applying a new Predicate object to the
FilteredRowSet instance at any time. This is possible if no additional references to the FilteredRowSet
object are detected. A new filter has an immediate effect on criterion enforcement within the
FilteredRowSet object, and all subsequent views and updates will be subject to similar enforcement.
